YOUR *sustainable* SOLUTION

Tempus TEMPORARY FIRE DOORS

NEXT GENERATION FIRE PROTECTION

Scan to view website

Constructed from heavy-duty steel with a mineral wool core, Tempus is designed to withstand the rigours of a construction site whilst maintaining fire compliance throughout.

Available in two sizes; 1000mm(w) x 2100mm(h) and 1000mm(w) x 2300mm(h).

STANDARD DETAILS

1 60 MINUTE FIRE RATING

- › Tested to BS EN1634-1 for resistance to fire

2 FIXING HOLES (FACE-FITTED)

- › Easy access and quick to install
- › Provided with slots to enable the door to be lifted if required without removing all the fixings

3 TRAVEL-BOLT SYSTEM

- › Keeps door closed for easy transportation
- › Holds the exact door gap when installing

4 PULL-HANDLE

- › No latch required allowing simple and efficient usage by site operatives

5 ADJUSTABLE DOOR CLOSER

- › Ensures the door is always closed after use
- › Back check provided to prevent damage to the doorset and the surrounding area when it is opened too fast

6 VISION PANEL

- › Provides visibility of anyone coming the other side avoiding any accidents or collisions

7 DURABLE HINGES

- › With self lubricating sintered bronze bearings

8 PUSH/KICK PLATE

- › Providing additional door protection from the wear-and-tear of daily use

OPTIONAL EXTRAS

DROP-DOWN THRESHOLD SEAL

- › Automatic drop-down threshold to provide a complete seal underneath the door.

DEAD LOCK

- › Providing additional door security by allowing areas within the building to be closed off.

SPECIAL FEATURE

SeraTM **Fire-activated Lock**

In the event of a fire the door locks to stop the spread of fire

The unique inert locking system automatically activates when in direct contact with fire, typically between 100-200°C.

Once activated, forced entry is possible for Fire Brigade.

SUSTAINABILITY

As one door closes, another opens!

Tempus is a self-contained, pre-hung unit meaning the doorset **can be reused time and time again on multiple projects**. By reusing the doorset we can significantly reduce the waste associated with traditional temporary doors.

INSTALLATION

The pre-hung unit makes **installation quick and simple**. The doorset is face-fitted to the wall, this ensures the doorset can accommodate varying opening sizes. If required, our technical team can assist with any installation queries on-site.
