# Rida Metal riser doorsets

The durable steel construction with an E30Sa fire rating offers a cost effective alternative to timber riser doorsets.

Images for illustrative purposes only. Not all configurations are fire rated.

## Affordable concealed fire protection

Rida metal doorsets are made of non-combustible materials; reducing the risk of uncompliant installations, achieving E30Sa fire resistance and improving building safety. Scan the QR code to view the fire test.

## Typical applications

The standard sizing of Rida makes it an affordable choice for high-volume applications that require strong, reliable and safe risers such as:

- [Residential Apartments](#) / [Student Accommodation](#)
- [Educational Facilities](#) / [Healthcare Developments](#) / [Commercial](#)

## Fire-stopping Protection

**Quench**  **PRE-APPLIED**

Factory fitted fire stopping means consistency and assurance of compliance with no additional on-site labour required!

Once installed, Rida can be plastered or tape and jointed up to the integral stop-beads creating a perfectly flush profile with the wall.

- 1 Powder-coated steel door
- 2 3-point lock (with plastic bung)
- 3 Perforated fixing flange
- 4 Concealed frame
- 5 Concealed pivot hinge

## The better alternative to timber:

### Say goodbye to warping timber doors!

Changes in temperature and climate within the shaft can cause timber doors to twist and warp. Rida removes this risk of non-compliance due to its steel construction which is not affected by differing climate conditions.

### Compliant with the latest legislation

Rida is a complete, fire-tested doorset system reducing the inherent risk of using mixed and untested components.

### Factory assembled modular system

Providing guaranteed quality and consistency.

### Less dependence on skilled labour

As a pre-assembled doorset, installation is faster, easier, and more accurate than traditional timber doors reducing the risk of snags from poor workmanship.

### Easy maintenance and redecoration

Requiring little to no maintenance, Rida removes the headaches of remedial works associated with timber doors. The 'dead-matt' finish is designed to be painted with wall emulsion, no masking or special paints required.\*

\*Maximum permitted thicknesses apply - See datasheet for more information

## Standard sizes

LEAF SIZE	S/O	HANDING	ORDER NO.
<b>SINGLE</b>			
1900×500mm	1922×520mm	LH	SEL-PRT-14000-1
1900×750mm	1922×770mm	LH	SEL-PRT-14000-2
1900×500mm	1922×520mm	RH	SEL-PRT-14000-3
1900×750mm	1922×770mm	RH	SEL-PRT-14000-4
<b>DOUBLE</b>			
1900×1000mm	1922×1024mm	RH-Active	SEL-PRT-14001-1
1900×1500mm	1922×1524mm	RH-Active	SEL-PRT-14001-2

## Standard specifications

<b>FINISH</b>	White Ral 9010 Dead Matt
<b>FIRE RATING</b>	E30 (19mm Quench pre-applied)
<b>LOCK CYLINDER</b>	No Euro-cylinder provided
<b>LOCK / HEIGHT</b>	3-way Lock (only) / 900mm

## EXCLUSIVE PRODUCT INNOVATIONS:

### Riser Doorsets

Quadra+ Ligna Una Rida

High performance doorsets to conceal unsightly riser doors in corridors and access areas.

### Concealed Frame Doors

Arriva Innova

Frameless doorsets for high-end residential; designed to enhance contemporary interiors.

### Nulfire™

#### Fire-compliant door sets within wall-lining systems

Enabling Quadra+ Riser Door system to be installed in projection to rigid supporting construction.

### Automatic Opening Vents

Fuma+

The first fully concealed, internal AOV which matches minimalist aesthetics and functionality.

### Temporary Fire Doors

Tempus

Designed to withstand the rigours of a construction site whilst maintaining fire compliance.

### Sliding Pocket Doors

Enigma

Utilise every square inch of your room with the No.1 Pocket Door with limitless design options.
